

Personnel Lift Part

Personnel Lift Parts - Elevating personnel to overhead racks or shelving units, the fold down work platform is really safe and convenient. If not being utilized, this attachment can be conveniently folded and stored out of the way. It has a tine lock, a checker floor plate platform, and a long chain along with hook so as to attach the platform to the work truck. This particular platform is made of welded steel and like numerous various attachments, has the blue powder coat finish for durability.
