

Cascade Clamp

Cascade Clamps - Cascade Manufacturing Company was founded in Portland, Oregon in 1943. They began as a small machine shop in the beginning hiring four individuals. Product sales for their first year of operation amounted to about sixty thousand dollars. The first recorded sales revenues involved the assembly and machining of stainless-steel pipe fittings, valves and different components. Within 5 years of operation, the company had stretched to 40 employees and their annual sales volume had risen to three hundred thirty thousand dollars. At present, Cascade is one of the leading global makers within the material handling industry.

Design and production of the company's first hydraulic cylinder allowed this new business to aggressively pursue new business possibilities. All through the final sixty years, the trade of material handling has grown into a really sophisticated field with Cascade proudly playing a part in its growth. Cascade at the moment continues to develop as the best provider of lift truck accessories and numerous related products. The business feels assured in their skill to be able to continue to lead the way within the business by understanding buyer's needs in the future and remaining competitive within the global market.

During the nineteen fifties, Cascade started to fabricate, design, and sell its hydraulic accessories. A brand new facility was made in 1956, in order to house all plant operations and offices in Portland, Oregon, which is still the company's present center of operations. After fifteen years of business, total staff reached a hundred and eighty employees and sales had reached practically 2.3 million dollars.

1959 in Springfield, Ohio a second manufacturing plant was built. 1960 marked Cascade's initial move into the international world of the material handling industry while the business recognized interest in Australia, the Netherlands and England.

In 1964, the business altered its name to the Cascade Corporation. After that in 1965, the business went public with an initial offering of two hundred thousand shares of common stock. Ever since then the company has expanded its manufacturing services throughout the continental US to the locations Warner Robins Georgia to go along with its already present plants in Portland, Oregon and Springfield, Ohio. Cascade products are fabricated globally due to many subsidiary operations. In the year 1944, a new plant was accomplished in Almere, the Netherlands which is Cascade's European headquarters. This facility is built to be the ultimate customer support centre.

Continuing to develop, Cascade expanded their product offering further in 1996 and 1997 with the dramatic acquisition of 5 firms, including the worldwide leader in blades, the Kenhar Corporation.
